Notes on buying into the Pension Fund

Please note that your **payment** is only tax-effective for the current year if the amount is credited to our account **by the end of December at the latest**. Purchases that are not credited to our account until January must be declared in the tax period of the new year.

Once a buy-in has been made, the associated benefits cannot be withdrawn from the pension fund as a lump sum in the first three years. The Swiss Federal Court judgment of 12 March 2010 on case 2C_658/2009 ruled that the three-year restriction on lump-sum withdrawals for tax purposes applies to the entirety of the retirement savings, not merely the buy-in benefits. **If you should decide to withdraw a lump sum within the three-year period, you can expect to receive a sizeable tax bill.**

The buy-in is calculated on the basis of the information provided in sections 1 to 7 of this declaration and all information available to comPlan. Tax deductions applicable to the buy-in are determined by Swiss national and cantonal tax law. comPlan does not accept any liability for ensuring that contributions comply with the rules on tax deductions.

Confirmation of buy-in

I confirm that I have read and understood the notes on buying into the Pension Fund. I understand that any inaccuracies and omissions may have tax implications, for which I accept sole liability.
